

Neonatal resuscitation training

van den Hoogen A, Johnston L, Roehr CC, Panas M, Gözen D, Mannix T, Kühn T, Petty J, Schlembach D, Simeone N, Stoniene D, Tency I

Statement of the standard

Every healthcare professional is given access to and undertakes regular neonatal resuscitation training.

For parents and family

- Parents and families are informed by healthcare professionals about neonatal resuscitation training and have an opportunity for resuscitation training before discharge.
- Parents are supported to stay with their infant during resuscitation if they wish.

For neonatal unit

- Recertification evidence is regularly audited.

For hospital

- Training in resuscitation is ensured.

Benefits

Short-term benefits

- Reduced mortality and morbidity

Long-term benefits

- Improved long-term outcomes with timely and effective resuscitation

For healthcare professionals

- Training in resuscitation using the European guidelines is attended by all responsible physicians, nurses and midwives.

For health service

- N/A
